

Lesson 7

READ THIS STORY #1, Basic

Distraction

Rob wasn't paying attention to the instruction about division. It was his intention to listen, but there had been a distraction.

A fly had landed on his pencil and buzzed. He tried to brush the fly away. The pencil had fallen and rolled on the floor. Mrs. Wilson had stepped on it. There was a big commotion when Rob yelled about the destruction of his pencil.

Rob was lucky not to get detention.
