

## Lesson 14

## READ THIS STORY #1, Basic

Pilgrims

Many years ago, there was a movement aimed at changing some practices of the dominant Roman Catholic establishment.

A monk posted a statement challenging policies that he thought were objectionable. People who agreed with him were called Protestants because they protested.

Both sides became inflexible and the situation became combustible. As people on both sides became excitable, deplorable things happened.

Some Protestants left their homelands and settled in colonies. They were called Pilgrims.
